## A REVEAL OF THE VASTY DEEP.

(After a Course of Kipling.)

A twin-screw brig, with an A.I. rig, was the good ship 'Bolivar'. All spunk and spunk, from the donkey-man to the helmsman on the captain's bar. She was built with a ten-foot yawl, and a regular chanty crew, and right away at the mizen-mast, the scarlet 'Bolivar' flew.

And oh! dear lad, what a time I've had collecting sailor songs, and weaving into the strangest songs that ever a sailor sang. Well, they mayn't be true but they seem to do, for the cheeks are large and fine; There's nothing like cheek when your fame's unique, and the pay's five dollars a line!

We had fugged the shore for a week or more, till on the seventh night, From out of the gloom the cheery boom of the 'Deutschland' loomed in sight; And inch by inch, as she dipped her winch, and her fulmar flying high, Through the sleet and mist, with a forward list, she strove to pass us by.

'Full steam ahead!' our captain said—and we heard the pennant crack— With a twist of the heel he put the wheel about on the starboard tack! With bill in hand, he took his stand afloat on the aftmost hatch, And the 'Bolivar', like a shooting star, began to snore and rattle.

So away we went, with our foe's lee bent, and our hawse-pipe smoking free. While the knowledge on the kolon shone atop of the topmast tree. On the poop aloft, where they forced the draught, the coal chutes glimmered white, And we spliced the guys to the cathead tics, and made the doldrums tight.

And never a word we spoke, but heard the hull-mouthed breakers call. While close behind the sun-west wind went yammering down the wall. The garboard stroke was all astir where the spinnaker-thrust comes through, And still afloat, at the mizen-mast, the scarlet 'Bolivar' flew.

And they piled each grate with the best Welsh slate, till the gunwales almost broke— You could hear them hum like a distant drum as the gully-butt gave the stroke. Then the hullard peak began to leak and the engine-room grew hot, For the hobstays jammed, McAndrew damned, and the captain slanted the lot.

And inch by inch, while she dipped her winch, and her fulmar flying high, Through the sleet and mist, with a forward list, the 'Deutschland' passed us by. But oh! dear lad, what a time I've had collecting sailor songs, and weaving into the strangest songs that ever a sailor sang. Well, they mayn't be true, but they seem to do, for the cheeks are large and fine; There's nothing like cheek when your fame's unique, and the pay's five dollars a line!

## A NEW FASHION SET BY THE KING.

The fashion of wearing moleskin garments, recently revived by the King, who has been wearing a waistcoat of that glossy fur, has caused a boom in moleskins. Molecatchers all over the country, especially in Lincolnshire, where the little creatures abound, are straining all their energies to collect skins and make a little fortune. Thousands of moleskins reach the great fairs and establishments every day from all parts of Britain and the Continent. At the Fairies' Alliance, in Old Bond-street, 4,000 skins have just arrived in one consignment, and the firm state that they cannot get too many, as the demand for moleskin garments is so great. Formerly, said a member of the firm to a *Daily Express* representative we paid about 1d. each for the skins; now the price sometimes reaches as high as 1s. for a good skin. Ladies are having moleskin muffs, stoles, and jackets, and even motoring coats.

They do not mind the expense so long as they are in the fashion, although moleskins are notoriously bad wearing as they are so fragile. A coat or jacket of moleskin soon wears out through the pulling required in getting it on. One long coat of mole's fur would contain hundreds of skins.

At a well-known motorist's out-fitting establishment in Piccadilly, the same tale was told. Motoring garments even to gauntlet gloves of moleskin have been made. One pair of gloves contains about forty skins, and as the skins in the rough averages about 8d. each, the cost of this little fashion fable may be reckoned at a pretty high figure.

## Better than a Plaster

A PIECE of flannel dampened with Chamberlain's Pain Balm and bound to the affected parts is superior to any plaster. When troubled with a lame back or pain in the side or chest, give it a trial and you are certain to be more than pleased with the prompt relief which it affords.

In every community it is a frequent occurrence for some one to be burned or scalded. The best treatment is Chamberlain's Pain Balm, which almost instantly relieves the pain and quickly heals the injured parts. For sale by all chemists and medicine vendors; WATKINS Ltd., General Agents.

EDITORIAL COMMENT.

The telegram published in this issue, announcing the Government of the Straits Settlements has adopted a scheme for the reform of the currency on the lines laid down by the Commission recently appointed to deal with the matter, should be the source of much gratification to those who have consistently advocated a similar change for this Colony. That the recommendation for the establishment of a gold standard must have appealed strongly to the members of the Government and the members of the Council is shown by the fact that there was only one dissentient to the proposal—an unofficial member. The telegram does not state on what basis the conversion from silver to gold is to take place—the Commission left it open for the Government to determine that, but it can be taken for granted when so much unanimity was displayed that the provision made was considered equitable in every sense of the word. The only dissentient was Mr. G. S. Murray, the manager of the Mercantile Bank of India, and his attitude is one which should occasion surprise, since the strongest opponents to the proposal to establish a gold standard have always been the exchange banks. The action of the Government is one that should go far to hasten a change in the currency of this Colony. It should strengthen the wavering, and give renewed vigour to those who are firm in the conviction that a change of exchange will do more for the promotion of sound trade than the present unstable system. The strong argument of opponents here has been that a change will drive away trade, but the Straits Commission scorned that idea, and the Government have now joined with them in that respect. It is not likely that they would have done so if there had been the remotest possibility of a gold standard being the means of plunging the vast trade of the Straits Settlements into chaos and ruin. The Straits Settlements are not Hongkong. It is true, and they are far distant from China. What is wanted now, however, is united action in Hongkong to induce the Government to adopt the gold standard, and bring pressure on China to do so. The fact of our island being geographically a portion of the biggest silver-using nation in the world must always be allowed to be a serious drawback, but differences in that respect might easily be overcome by a determined effort on the part of the Powers—a suggestion previously made—to influence China to go upon a gold basis.

**A False Alarm.**  
Immediately after sunset yesterday evening, the Fire Brigade, under Chief Inspector Baker were summoned on a false alarm to the vicinity of Bonham Strand. It appears that the fireman in charge of the Fire Brigade Station observed the bright-ness of the sky after the sunset, and mistaking it for the reflection of a fire raised the alarm.

**Obtaining Goods by False Pretences.**  
At the instance of the manager of Messrs Edwards and Co., Yu Shiang and Wong Kau were charged before Mr. F. A. Hazeland, at the Magistrate's this morning, with attempting to obtain three cases of white shirting, valued at \$300, the property of the firm, by means of false documents. The case was remanded till Wednesday, the 3rd prox.

**Plague in the Victoria Gaol.**  
Early this morning, a case of plague was reported in the Victoria Gaol. The unfortunate was a native woman, who was admitted to the Gaol on the 26th of March, on a charge of being in possession of a quantity of opium, for which offence she was sentenced to three months' imprisonment. She was examined by Dr. Thompson, and afterwards removed to the Tung Wo Hospital.

**The Pitched Battle at Kowloon.**  
The seven natives who were arrested by Sergeant McSway and other members of the Yaumati and Hungnam Police Station, charged with being connected with the affair, at Kowloon yesterday, were again brought before Mr. F. A. Hazeland to-day on remand. After hearing the evidence, Mr. Hazeland fined them \$50 each, and bound them over with the sum of \$200 each, to keep the peace for one year.

**Notes by the Way.**  
The German Mail of the 29th April was delivered in London on the 29th inst.

The Government call for tenders for the Opium Farm privileges for three years, from March 1914 to March 1917.

His Excellency the Governor has added the name of W. V. M. Koch, M.B., M.D., to the list of Official Justices of the Peace resident in the Colony.

**To Subscribers.**  
Monday being observed as a Bank Holiday the China Mail will be issued at 1 o'clock, instead of the usual time.

**Postage Stamp Sales.**  
The total sales of Postage Stamps in Hongkong for 1902, amounted to \$264,420.83, an advance on the sale of the previous year of no less a sum than \$25,420.34. The sale of stamps at the British Post Office at Shanghai and at the British Post Office in China, amounted to \$90,245.02, an increase of \$8,140.74 on the previous year's receipts. The Shanghai Post Office receipts under this head were \$50,019.06 in 1902, against \$38,749.64 in 1901.

Robels in Kwangsi.

An official telegram has been received at Kwangtung from officials in the Kwangsi Province, says the Shanghai Daily News, stating that the rebels in that province are becoming bolder every day. French soldiers have recently been sent into the disaffected province, and are now stationed at Maling Shan. The people are greatly scared. The Governor has ordered the military officials to not relax their vigilance and to do everything to assuage the fears of the people.

The Trade of Canada.

It is estimated that at the close of the present fiscal year the aggregate trade of the Dominion will approach the enormous total of \$90,000,000, or \$7,000,000 more than in the year previous. The trade returns for the eight months ended Feb. 28 show that Canada's aggregate trade, on the basis of imports for consumption and domestic exports, amounted to \$60,000,000, or a gain of \$5,500,000 compared with the same period of the preceding fiscal year. The domestic exports exceeded the imports for consumption by \$2,500,000.

An Automobile Runs Amuck.

In the Automobile race that was held at Paris on May 26, says the Manila Cebu News, May 27, one of the largest machines while running at high speed became unmanageable during one of the contests and suddenly shied to one side, narrowly missing another machine and crashed through the ropes along which a large crowd of people were standing. There was an immediate stampede, but none were crushed to the earth in their efforts to escape. Six unfortunates were killed and several others injured while the Chaffeur escaped with a few bruises.

To-day's Plague Return.

To-day's plague return shows that a Filipino has been claimed by the disease, the unfortunate being a little 9-year-old boy, Manuel Brown, of No. 1, College Gardens, whose case was reported to the authorities yesterday. The list also shows that four more Indians have been attacked. Two of the cases are from the Victoria Gaol Wardens' Quarters, the third from the Jail's Kerosine Godown at East Point and the fourth from No. 51 Punjab Lane, Kowloon. With the exception of a Portuguese from the first floor of No. 53 Staunton Street, all the other cases, nine in number, were Chinese. Of these one occurred at the Sinking Police Station, in the New Territory, and one at St. Francis Convent, Wanchai. Only one case of a body being 'found' is shown on the list, the corpse being picked up in the harbour near Kowloon.

Edison's New Storage Battery.

Mr. Herman E. Dick, of Chicago, recently arrived in London to initiate an attempt to convert scientific Europe to the faith in Mr. Edison's new electrical storage battery. He is placing cells for testing purposes in the hands of great electrical experts in every country, with a request for exhaustive experiments and unreserved criticisms. Maselet of France, Phizel of Italy and Forester of Germany are already making tests, and Mr. Dick expects preliminary reports from them shortly. In an interview, Mr. Dick declared that most experts doubted the value of Edison's invention. 'We expect,' he said, 'a complete reversal of opinion before the tests are concluded. Mr. Edison considers the battery the crowning achievement of his career, and it is our purpose, as soon as Europe is brought to a similar view, to erect plants for the manufacture of the battery in all the principal countries on this side of the Atlantic. Science is profoundly sceptical in this matter, because there are 8,000 unsatisfactory batteries in existence. Mr. Edison's is different from all the others. It absolutely solves the electrical storage problem. In five years' time it is likely to be a rare sight to see a vehicle of any kind drawn by a horse in London, and every household will be able to have his own electric-lighting plant.'

Nine Epidemics.

CHAMBERLAIN'S Colic and Diarrhoea Remedy has been used in nine epidemics of dysentery with perfect success, effecting a cure in the most severe and dangerous cases. If troubled with diarrhoea or bowel complaints, try it once and see how you like it. From all over the world come words of praise for Chamberlain's Colic, Cholera and Diarrhoea Remedy. It has a world-wide reputation for its cures of dysentery and diarrhoea. No family can afford to be without it, as it is especially valuable for children. Filipinos for America.

The Manila Cebu News states that it has been decided by the United States government to take over at least one thousand Filipinos to the St. Louis Exposition in 1904. A native village, with departments illustrating the lives of the natives, has been planned on a large scale. The natives who will make up this exhibit will be taken from different islands.

Max O'Rell.

The Manila Cebu News publishes the following:—Paul Blouet, known the world over as Max O'Rell, died in Paris lately (May 20) of cancer of the stomach. This famous journalist has been suffering for some years with the dread disease, and had several times declined to submit to an operation. Max O'Rell was born in Brittany in 1848, educated in Paris, fought in the Franco-Prussian war, in which he was severely wounded, and then spent some years in lecturing throughout Europe. He is also the author of several books and plays and has had several orders conferred upon him, he spent several years in America and in 1901 became the editor of the Paris Figaro, which position he held when he died.

Important Naval Manoeuvres.

The London correspondent of the Liverpool Post wrote in April:—'I am informed that the forthcoming naval manoeuvres are to be of an unusually important character. The purpose of the manoeuvres, so far as this has been allowed to transpire, is to show how far it would be possible to permit the co-operation of the Home and Channel Squadrons, the Coastguard, the Fleet Reserve, and the Royal Naval Reserve seamen and firemen in one common scheme. In order that the effort may have an effective character the spare men to man the Reserves. In a word, the idea is that the manoeuvres should be conducted under conditions such as might exist in war time. This is Lord Charles Beresford's own scheme, but he has certainly found a ready sympathy in the Admiralty.'

The Natives and the Plague.

About midnight last night an Indian Constable was going his usual rounds in Des Vaux Road West when he observed a woman making towards the roadway with a parcel in her arms. He considered the time rather late for such a proceeding and demanded an explanation. On opening the parcel the Sikh found that it contained the dead body of a native lad, the woman's son. He promptly arrested the woman and had the corpse removed to the mortuary, where it was found to be infected with plague. This morning, before Mr. F. A. Hazeland, at the Magistrate's, the woman was charged with removing the infectious body of her son, without a written authority. In answer to a question put by Mr. Hazeland as to why she chose to 'dump' the body in the street, she declared that she had been advised by her neighbours to do so, in order that the Police might pick it up when they came round, as they would look after it with more care. A fine of \$39 was inflicted.

Best Treatment.

INFLUENZA is always more or less prevalent at this season of the year. This disease is very similar to a severe cold and if allowed to take its course is liable to cause serious results. The best treatment for influenza is to avoid exposure and take Chamberlain's Cough Remedy. This medicine gives immediate relief and if used as directed, will ward off all dangerous consequences. It leaves the system in a natural and healthy condition. It always cures and cures quickly. For sale by all chemists and medicine vendors; WATKINS Ltd., General Agents.

MR CHAMBERLAIN'S FISCAL POLICY.

London, May 28, 1903.  
On a motion to adjourn the House for Whit Sunday Sir Charles Dilke raised a discussion on Mr Chamberlain's fiscal policy. Mr Balfour advocated re-casting the Commercial policy in the direction of reciprocity. Mr Chamberlain said that he was justified in taking the opinion of the country in view of the resolutions passed at the Colonial conference; he recalled the complete change of circumstances since Golden's day, and suggested revenue for the sole purpose of meeting expenditure. If foreign countries treated our Colonies as foreign nations we must retaliate. The House adjourned to the 8th June.
